# MAKE MISSIONS HAPPEN

The Space Dynamics Laboratory (SDL) relies on mission-focused, results-driven suppliers to provide high-quality goods on time and within budget. Our supply chain is critical to our mission, and our suppliers are vital to our success.

Our suppliers enjoy the following

- Prompt payment
- Supportive and friendly collaboration
- A culture of respect and teamwork
- Meaningful opportunities to support the warfighter and enable scientific exploration

Register to join our team!

## OUR CUSTOMER'S MISSION IS OUR MISSION

SDL is a nonprofit University Affiliated Research Center and trusted agent of the Government. Join our team and be part of our mission success. Our multi-domain engineering capabilities often require the following materials or services:

- Satellite subsystems
- Ground stations
- Optics
- Sensors
- Software development
- Special processes like plating and coating
- Circuit board manufacturing
- Electrical, electronic, and electromechanical parts
- Construction
